

my pre war auto-biography

My name is Aleksander pjetergjokaj. I was born in 1897. I'm 9 years old. I live on derham road 338. The homes are pretty straight forward really. I live with my mum, my dad, nanny and grandad and I have four brothers. we sleep head to tail. It's super uncomfortable. N IF one of us needs the bathroom we get up and go. It's super cold in winter if one of us needs to go. Life is not easy there was a Heigham flood that went up to our door's it was horrible we were starving.

Every year we had a school photo it was a good thing. My friends are Euron, Jayden, Aiden, Lee, Ben and Riley. It is good the six of us liked it. we broke glasses that had no laces in them. we went to go to the park together we played on the swings it was fun. we go to mensum school

A moment in my life that I will always remember was a visit from the king practising at the national anthem, going to see the city to see the King Edward VIII and receive a mug. The also has a flood it flooded up to our door

My current job occupation is a chocolate factory worker. It's an ok job. I am paid 2 pence a day because I eat the chocolate because we are allowed. I limit myself to 10-15 pieces of chocolate a day. It's nice chocolate but we are not allowed to bring it home. I am the smallest and youngest here so it's hard to see me. It's annoying sometimes but at least better than a workhouse it's apparently horrible because my friend Euron said you are not allowed to be with your children
