

My name is Jake Cameron and I live on little armer street in Heigham Norwich. I am 12 years old I was born in 1892. I live with my mum, dad and I live with six brothers plus the sisters. My house is the up the down terrace house. I have to share my room with my brothers and sisters. We sleep head to tail it is so uncomfortable. My house has a toilet on the outside of the house it gets cold easily in the winter. My mum and dad sell canaries in the backyard to sell to miners.

When I was younger I went to Wensum junior school. The teachers were very strict. My favorite lesson was PE. Me and Malachi liked to play with marbles that we got from bottles. My favorite food was pig leg.

My current job is a shoe factory worker. I am not paid much but I make enough money for my family. I enjoy work because I have good work mates called Malachi and Aleks. Sometimes work is hard it beats being in a workhouse. I hear the workhouse is loud, dirty and noisy.

A moment in my life I will always remember is the flood. The flood of Heigham filled the downstairs of the houses. All of the things were lost. Homes and things were destroyed. A man swam all across Heigham.

My Pre War autobiography
