

My name is Jo, I'm married to a man named Jacob. We have a baby but it was the war training day and Jacob stayed for one day. The next day Jacob went to the war training without naming the baby. So I named him Jacob Junior in memory of his father.

As I was so poor and the war was going on, I had to get work to look after baby Jacob. All night long, I work at the factory where they make Barbed Wire. The wire stops the U-Boats crew from landing on the beach. My mum and dad look after Jacob while I'm at work.

I wear thick leather gloves so my hands don't get scratched and torn while I'm making the barbed wire.
