

My trip to Gressenhall and dreamy hollow by Kyle Spall.

On Tuesday 20 June, all year 5 class went on a coach at 9:15 and on the coach, I talked to Daniel. We arrived at Gressenhall we met Jim and Rachel, and we put our bags on the table. Turner class went to a school lesson the children had to keep their hands on the desk, or they would get whipped really hard and they would learn the alphabet. Rachel took us and Harriet who was going to set the straw bed on fire so she went to prison and she broke out of prison, then we went back on the coach to dreamy hollow and we went to a real trench, what was dug a 100 years ago, we all got to try a real soldier hat on then we went to go somewhere and there was a gas bell, when there was a gas a soldier would ring it if there was a gas. sir Dave had 2 fake gas and handkerchief to put over our nose so it looks like real gas from 100 years ago, but it was not real gas there was a toilet and Hollie and Charlie was A example they used to use buckets in ww1 they had rifles ,and bayonets so you put a bayonet on your rifle and the best time to try to kill them so get a killing strike was at night, on them German's no one likes them Germans so you ,want to try kill all of them so they don't start ww3, because no one likes them their no fun they need to die.
