

My life as a woman in WW1 by Rylee George - Leroy.

My name is Claire. I live with mum and dad but my dad is in the great war and I look after my mum because she needs help with cleaning the house. We have not heard anything about my dad for 2 weeks if my dad is still alive or not alive. It makes me upset.

I am enjoying my new job as a nurse. I have to work at 03:00 in the morning. In order to get to work is probably 1.2 miles away. As part of my job as a nurse I need to look after patients. My job is very dangerous hard and frightening because I might get hurt too. I like being a nurse because it is fun pulling out a bullet from a wounded soldiers brains.

After a long day at work, still there are lots of things to do. To start with, you start cooking your tea and boil your water to wash your laundry by hand. This take me three hours to do. After that we have to boil a tub of water for the bath.
