

*My life as a woman in WW1 by Sylvie*

My name is Passionate Royalty; I am enjoying my job as a Nurse. I have to go to work at 2AM and walk for an hour.

I feel happy to see girls working there. I am an independent worker. If I needed to and if I'm stuck, my 4 friends help me. My duties include, helping injured soldiers from all teams. I work 10 hours I get paid a small amount every time I work; I get paid 2 shillings. My job is sometimes okay, it's mostly of my work is dangerous thing from injured soldiers. I also don't really like cleaning up some bad and dangerous things from injured soldiers. I feel happy at the end of work because I think I had a great job working and helping people's lives,

After a long day at work, I still have lots of things to do. To start, I look after the children. After that, I cook dinner I heat up to get ready to cook it takes a couple of hours, and while I am waiting, I take a bath and it takes a long time to get the water running from the metal tub. Once it has finished, I rince me and the children. Then, I use the same quarter that I used to bathe to wash my dirty clothes with and, when I've done, I rinse my dirty clothes I then rinse one last time. I fix theme with a needle and I make the sheep wool and use that to stich them. Once my heating up is done, I go and get some food to cook.
